

9th

ICMMM 2022

2022 9th International Conference on
Mechanical, Materials and Manufacturing

August 26-28, 2022

Washington, USA

SUBMISSION

Template Paper: [Full or Abstract](#)
Submission System: [Iconf](#)
Join as Listener: [Register](#)

IMPORTANT DATES

Submission: April 15, 2022
Notification: May 05, 2022
Registration: May 20, 2022

VENUE

Capitol Technology University
11301 Springfield Road
Laurel MD 20708 USA

Welcome To ICMMM 2022

On behalf of the Organizing Committees of 2022 9th International Conference on Mechanical, Materials and Manufacturing (ICMMM 2022), we cordially invite you to participate in this event to be held in Washington, USA from August 26-28, 2022, co-sponsored by Capitol Technology University, USA, with its workshop TMAE 2022. ICMMM aims to provide a platform for scholars, engineers, and scientists to present robust research demonstrating the expanding frontiers in the fields of Mechanical, Materials and Manufacturing. The past seven events were held in Chengdu (China, 2014), Paris (France, 2015), Savannah (USA, 2016), Atlanta (USA, 2017), Orlando (USA, 2018), Boston (USA, 2019), Virtual Conference (2020, 2021) successively.

PUBLICATION & INDEXING

Submitted papers will be reviewed by 2-3 reviewers. Accepted and presented papers in ICMMM 2022 will be published into Conference Proceedings, which will be submitted for Ei Compendex and Scopus.

Submission Type

Full Paper (Publication & Oral Presentation) / Abstract (Oral Presentation only)

Please prepare your paper according to the paper template. The full paper should be at least 5 pages in length.

CALL FOR PAPERS

Material Science and Engineering

- Biomaterials and Chemical Materials
- Materials Forming, Machining
- Materials Genome Engineering
- Smart and Intelligent Materials
- Optical/Electronic/Magnetic Materials
- Mechanical Reliability Theory and Engineering
- Earthquake Resistant Structures, Materials and Design

Mechanical and Manufacturing Engineering

- Aerospace Systems and Technology
- Computational Fluid Dynamics
- Internal Combustion Engines
- Intelligent Actuators and Materials
- Solid and Fracture Mechanics
- Renewable and Non-Renewable Energies
- Tribology and Reverse Engineering
